Summary

I'm a neurodiverse BA Film & Television Production student eager to start. I can work both independently and collaborate. I've worked on student films and set up a society to train filmmakers. I have office, organizational, and communication skills. As a videographer, I've worked independently with clients, creatively responding to briefs and feedback. I've also collaborated with New Media Lincs and Wallbreaker to gain non-fiction production experience. I'm excited to use my skills in a dynamic role.

Experience

Student Filmmaker- 09/2022 to present.
